OBJECTIVES

Market Awareness and Adoption

Establish FOCII as a trusted tool among YouTube creators by highlighting its unique features and benefits while creating anticipation for the Q3' 24 launch through online and offline campaigns.

User Education and Onboarding

Propose methods to educate potential users about the features and advantages of FOCII and ensure intuitive onboarding and continuous support for a seamless user experience.

Value Proposition and Messaging

Highlight FOCII's advanced analytics and deeper insights in marketing materials and showcase unique features that set FOCII apart from competitors through case studies and testimonials.

Assumptions Taken

1. The primary focus is growth and not monetisation.
2. The current version of FOCII extension works efficiently and its privacy and security features are perfect.
3. There are no budget constraints. This project is high priority for BAAI product and development team.

Target Audience

EDUCATORS & CONTENT CREATORS

The BAAI helps a YouTube content creator by helping them analyse the user behaviour and keep track of where users lose interest in the content so that they can work to make more user engaging content and enhance their market.

IN G-MEETS

The host of the meeting can keep track of the members using this Ai tool. It helps the host to keep the record of the members and monitors their focus level during a meeting

COMPANY EXECUTIVES OR EMPLOYEES

Employees within various industries who utilize YouTube for research, development, marketing, training, or customer service purposes
e.g. - Consumer Goods & Retail, Technology & Electronics, Healthcare & Pharmaceuticals

DATA PROVIDERS

The Data providers are the customers who use this extensions while playing a YouTube video. They are students or any other usual customer. In exchange of the data of the user they get token which cam be converted to real time money like rupee or dollar.

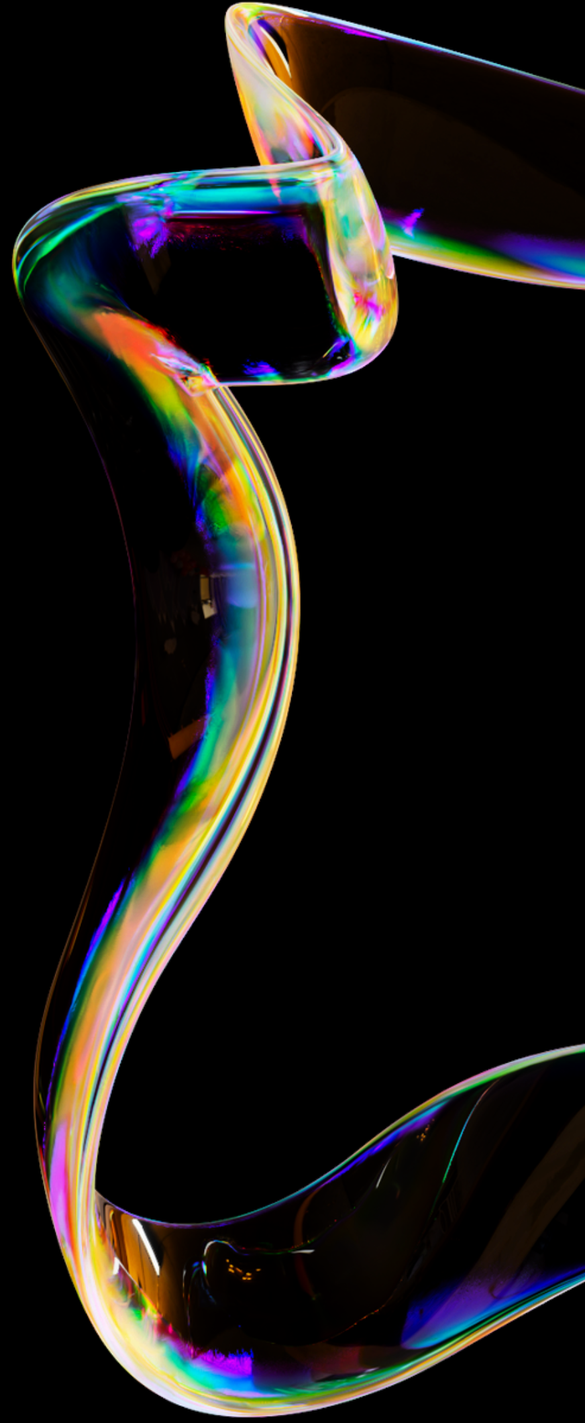

COMPETITIVE LANDSCAPE

Competitive Landscape Analysis:

Market Needs:
There's a growing need for tools that address distraction and improve focus specifically within online video platforms like YouTube. Also content creators require a tool which comes up with the analysis of user interaction with the content available which is quite helpful for the content creators to analyse the user involvement and interest in their content.

Room for Differentiation:
While existing solutions address aspects of focus or productivity, FOCII's biometrics-based approach offers a unique value proposition. FOCII provides a unique and innovative approach to deal with modern world problems.

Importance of User Experience: it is a user friendly and easy to access tool for user and creator both. Also the tool provides profit coins to the user who uses the extension while watching any YouTube video.

Targeted User Personas

	Nishant	Divyanshi	Shashwat
Demographic	28 y/o. YouTube content creater having 3M subscribers.	30 y/o. Online tutor taking 2 hrs of classes of 25+ students daily.	20 y/o. Student at IITK who watches yt videos for leisure.
User Needs	Insights to optimize content and attract viewers, plus analytics and data-driven recommendations for planning.	Tools to monitor student attention and engagement, real-time feedback on teaching, and data to personalize content.	Want to earn money by providing data on viewing habits and engagement while uninterrupted viewing experience.
Pain Points	• Limited Analytics • Uncertain Content Impact • Competitive Pressure	• Attention Monitoring • Lack of Interaction • Measuring Effectiveness	• Privacy Concerns: Worries about data privacy and how their information is used.

PRODUCT FEATURES

BrainAlive redefines digital engagement by combining neuroscience, computer vision, and NLP to decode the complexities of human engagement. Its mission is to empower human potential through a profound understanding of user states, driven by the fusion of vision and brain science.

FOCII YouTube extension features

1. FOCII enables 1-on-1 insights into the interests, effort, attention, and motivation of individuals. By analyzing these factors, FOCII provides a comprehensive understanding of user behavior, allowing hosts to tailor engagement strategies for targeted and effective interactions.

2. FOCII empowers hosts with powerful tools, insights and customized data dashboards to facilitate informed decision-making. By understanding audience preferences and behaviors, hosts can make data-driven improvements to their content, enhancing overall engagement and achieving their goals effectively.

3. BAAI analyses your eye movement along with your facial and vocal expressions to understand how you respond to any content.

4. This AI extension lets you earn rewards effortlessly in the form of crypto rewards that accumulate as you indulge in YouTube videos.

5. Privacy concerns : When FOCII is enabled, your webcam and microphone data never leaves your computer.

6. To maximize the benefits of FOCII, the solution also offers data analytics coaching and best practices. Hosts can identify trends, patterns, and opportunities within their audience data and empowers hosts to optimize their strategies and drive better engagement outcomes.

PAIN POINTS

The biggest issue with the product is that the user may have concerns about their privacy while watching YouTube videos.

For users, it may be difficult at first to provide their data to an unknown party in exchange for very few incentive tokens.

While using the FOCII YouTube extension, there is some lag on YouTube and also the miniplayer is not working properly.

Users may be concerned about their personal data being compromised, such as recordings and notifications.

SOLUTIONS

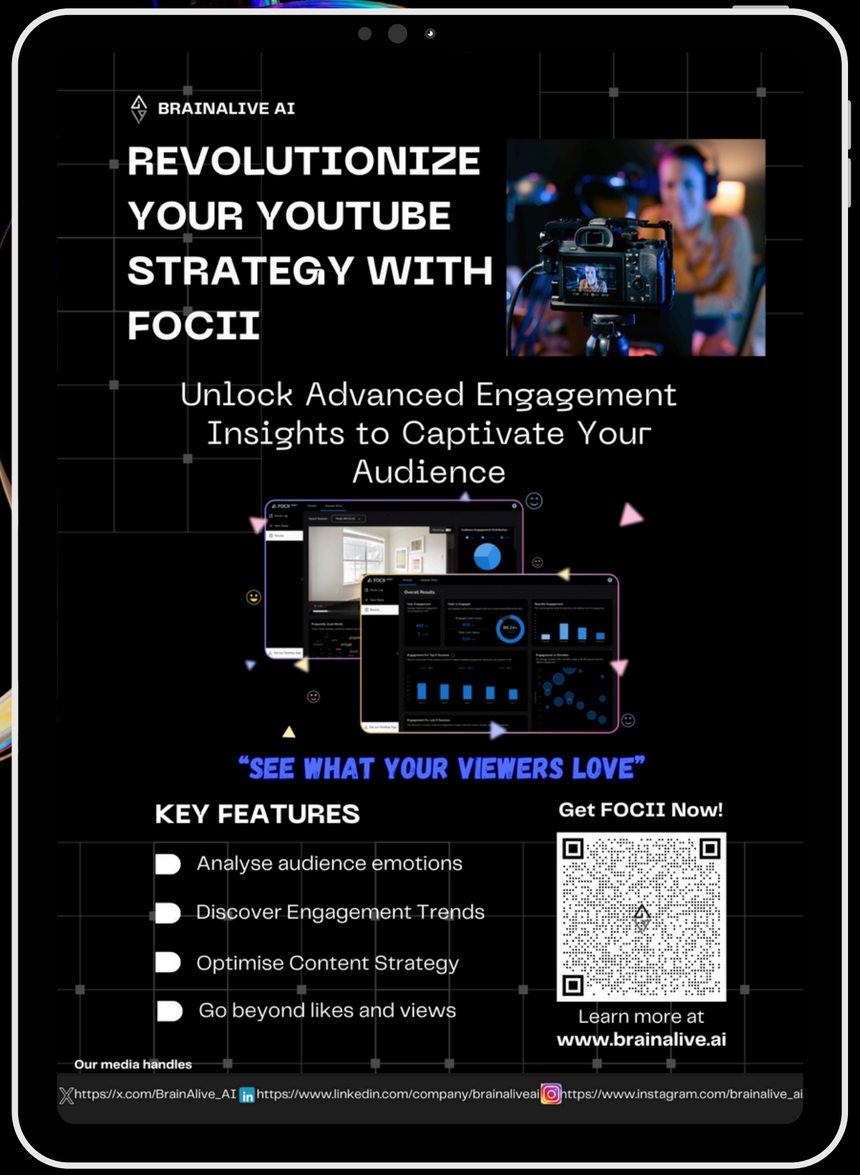

To inform them that they have complete control over FOCII's operation and they can turn it off at any point while watching the videos.

In the beginning, the initial incentive must be sufficient for them to believe. Over time, the incentive can be gradually reduced.

Bug fixing for lag, and informing them that FOCII can’t access their eye tracking during miniplayer.

To inform them that their data will not leave their screen and that all FOCII takes is analytics from their data.

GO-TO-MARKET STRATEGY(MARKETING CAMPAIGNS)

Influencer Partnerships

Collaborating with popular YouTubers to create sponsored content demonstrating the benefits of FOCII and encourage their viewers to use the extension.

Workshops and Webinars

Hosting virtual workshops and webinars where YouTube creators can learn how to use FOCII effectively and can know about the advantages of using FOCII.

Print and Merchandising

Distributing flyers, brochures and branded merchandise at events frequented by content creators and creating eye-catching posters to be displayed in creator studios and co-working spaces.

GO-TO-MARKET STRATEGY(MARKETING CAMPAIGNS)

Giveaways and Contests:

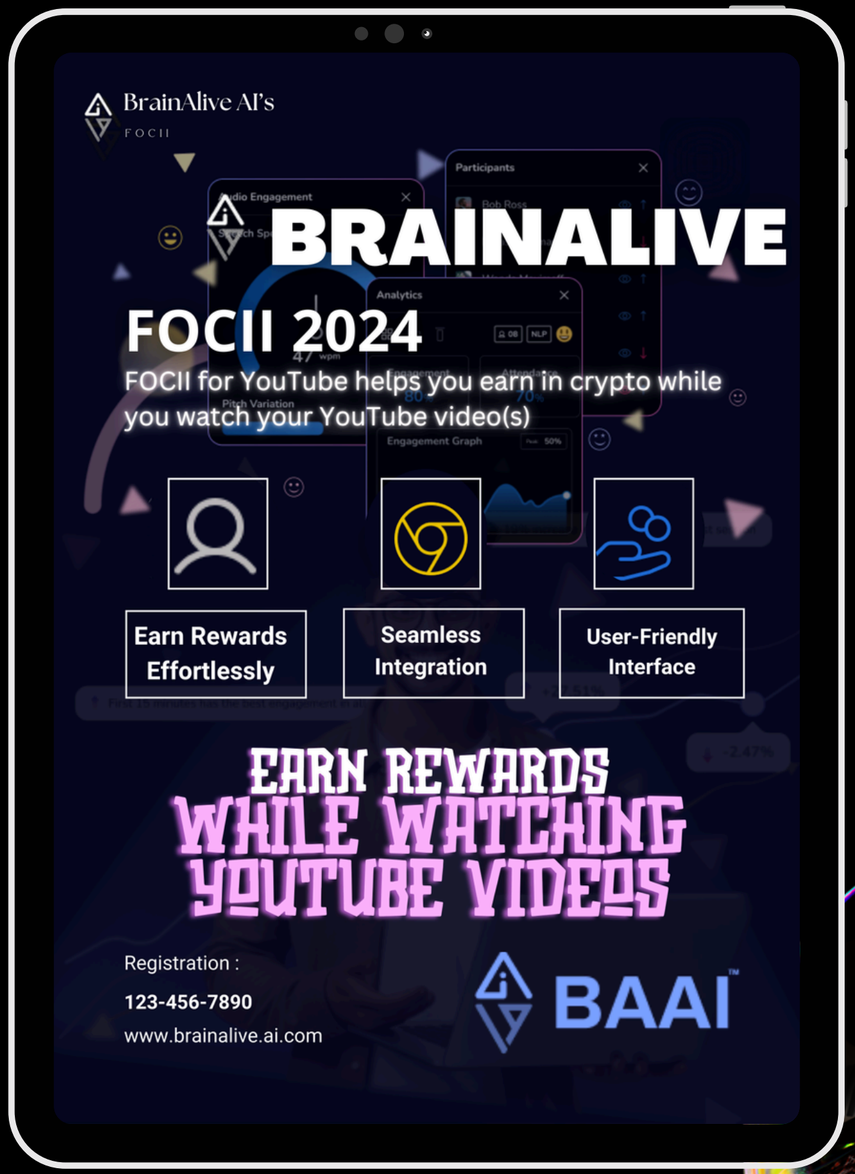

Creative Contests: Launch a contest where creators submit videos on how BrainAlive Focii helps them in their creative process, with winners receiving prizes or being featured on BrainAlive's channel.

Collaborations with Influencers:

- Sponsored Content: Partner with popular YouTube creators to review BrainAlive Focii on their channels.
- Unboxing Videos: Send BrainAlive Focii to tech influencers for unboxing videos, showcasing the product's design and features.

Educational and Informative Content

Expert Interviews: Collaborate with experts in productivity, neuroscience, and technology to create informative content about the science behind BrainAlive Focii, which can be shared on YouTube.

GO-TO-MARKET STRATEGY(BRAND AWARENESS)

CONTENT MARKETING

- **Blog Posts and Articles:** Publish informative and engaging content on BrainAlive’s blog and guest posts on some popular platforms. Topics can include the science behind FOCII, success stories, and how-to guides for YouTube creators.
- **Video Content:** Create tutorial videos, demos and case studies showcasing the extension's capabilities. Leverage YouTube, Instagram and other social media channels to distribute this content.
- **Infographics:** Develop visually appealing infographics that explain how FOCII works, its benefits and use cases. Share these on social media, blogs, and partner websites.

REFERRAL PROGRAMS

- **Incentivized Referrals:** Implement a referral program where existing users can earn rewards like extra tokens, gift cards or discounts for referring new users to FOCII.
- **Affiliate Partnerships:** Partner with influencers and content creators who can promote FOCII to their followers. Offer them a commission for every new user that signs up through their referral link.
- **Social Sharing:** Encourage users to share their positive experiences with FOCII on social media by creating shareable content and offering incentives for sharing.

GO-TO-MARKET STRATEGY(BRAND AWARENESS)

PARTNERSHIPS

- **Industry Collaborations:** Partner with YouTube, online education platforms and content creation tools to integrate FOCII's features or offer it as an add-on service.
- **Influencer Partnerships:** Collaborate with prominent YouTube influencers and content creators who can showcase the benefits of FOCII to their audiences. This can include sponsored content, reviews and tutorials.
- **Corporate Partnerships:** Forge alliances with companies in related fields such as video conferencing, e-commerce and OTT platforms. These partnerships can involve joint marketing campaigns, bundled offerings or co-branded content.

EVENT MARKETING

- **Webinars and Workshops:** Host webinars and online workshops that educate YouTube creators on how to use FOCII to optimize their content. These can feature live demos, Q&A sessions and guest speakers from the industry.
- **Industry Conferences and Trade Shows:** Participate in relevant conferences and trade shows (both virtual and physical) where you can demonstrate FOCII, network with potential users and gain industry insights.
- **Meetups and Community Events:** Sponsor or host local meetups and community events for YouTube creators and digital marketers. Provide hands-on demos of FOCII and gather feedback from attendees.

CUSTOMER EDUCATION AND SUPPORT

EDUCATE POTENTIAL USERS ABOUT THE FEATURES AND ADVANTAGES OF FOCII.

Detailed Product Pages: Create comprehensive product pages that include in-depth descriptions of BrainAlive Focii's features, benefits, and technology.

In-Depth Articles: Publish articles and blog posts that delve into the science behind BrainAlive Focii, explaining how it enhances focus and productivity.

Product Updates: Inform potential users about new features, updates, and enhancements to BrainAlive Focii through targeted email campaigns.

Comparison Guides: Create comparison guides that highlight the advantages of BrainAlive Focii over competing products, emphasizing unique features and benefits.

ONBOARDING AND SUPPORT STRATEGIES TO ENSURE A SMOOTH USER EXPERIENCE AND RETENTION.

Starter Guide: Attach a digital starter guide that walks users through the initial setup process, highlighting key features and providing tips for getting the most out of BrainAlive Focii.

Personalized Welcome Email: Send a personalized welcome email as soon as a user signs up or purchases BrainAlive Focii.

Social Media Groups: Establish and moderate social media groups on platforms like Facebook and Reddit where users can engage with each other and the support team.

Personalized Support: Offer personalized support sessions for users who need in-depth help, such as one-on-one virtual meetings with a support specialist.

CHALLENGES FACED DURING MARKETING OF THE PRODUCT

TECHNICAL COMPLEXITY

- Challenge: Users may find the technology behind BrainAlive Focii complex or intimidating.
- Strategy: Simplify the user experience with intuitive design and clear instructions.

PRICE SENSITIVITY

- Challenge: The price point may be a barrier for some potential users, especially if there are cheaper alternatives available.
- Strategy: Clearly communicate the value proposition and long-term benefits of BrainAlive Focii.

MARKET SATURATION

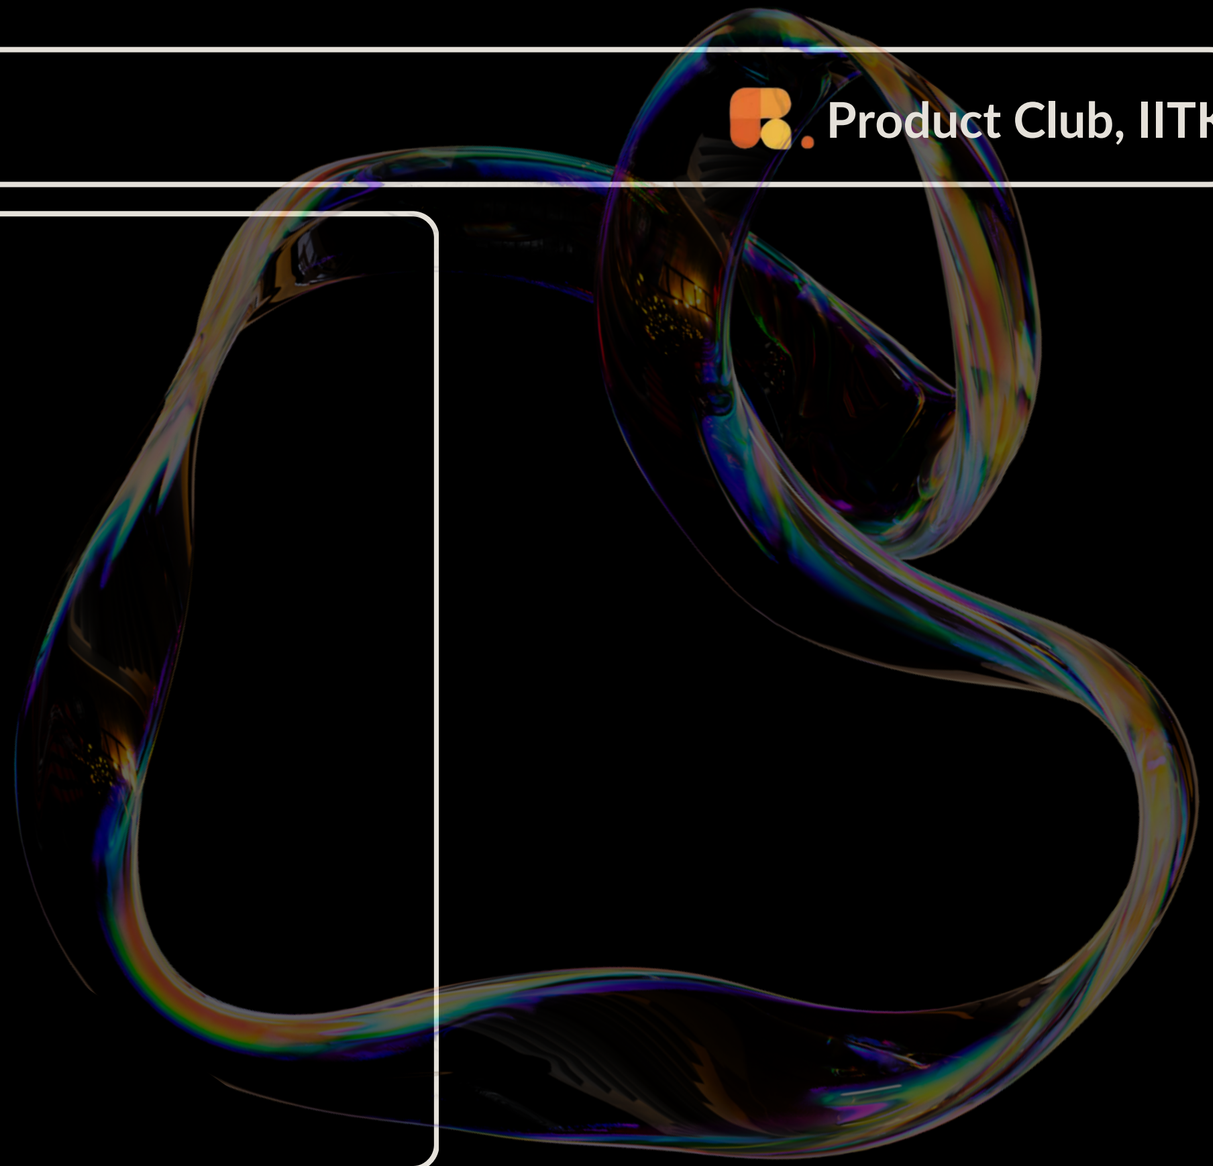

- Challenge: The market for productivity and focus-enhancing tools is saturated with numerous apps, gadgets, and supplements.
- Strategy: Differentiate BrainAlive Focii by emphasizing unique features, scientific backing, and superior user experience.

CUSTOMER RETENTION

- Challenge: Ensuring long-term engagement and retention can be difficult, especially if users don’t see immediate or noticeable improvements.
- Strategy: Implement a robust onboarding process, provide ongoing support, and create a community around the product.

CONCLUSION

- The presentation covers all the details and strategies for BrainAlive's FOCII to increase its user base and create a necessity for Youtubers in the near future.
- It has covered all the aspects starting from market analysis, product features and a complete Go-To-Market Strategy and ending with the challenges that can occur during the implementation.
- We have to focus more on collaborative partnerships and frequently run marketing campaigns to develop trust among users.
- Thus, creating a product for the betterment of the future.

THANK YOU
