Overview

Swiggy, founded in **2014**, is an Indian company that started with food delivery and now offers various services.
In **Q1 FY26**, it achieved **45%** YoY growth.
Swiggy uses its own fleet for fast service in over **720+** cities in India. [1]

UVPs

₹99 Store: Affordable options from all restaurants
Swiggy One Lite subscription for just ₹1 for 3 months
Up to 67% off on orders and a flat ₹225 off on select deliveries
Dining Out: An extra 20% off on dining out bills

Food
Instamart
Dineout
Scenes

Business Model

Revenue: Restaurants, Delivery Fee, Subscriptions and Advertising.
Technology: In house application and efficient tech team

Objective: To make Swiggy the first go-to food companion on campus, across both delivery and dining out.

Opportunities

Digitize In-Campus Canteens: Integrate campus canteens and food outlets onto the platform
Enhance the Group Dining Experience: Automatic payment splitting, and curated student deals
Build Loyalty Beyond Discounts: Address the low user loyalty by creating an experience-focused program.

Problems

Low Average Order Value (AOV): High delivery fees for frequent, small order
Missed Late-Night Demand: Strict delivery restrictions after 10 PM
Limited Dine-Out Visibility: A lack of on-campus partnerships and poor visibility

Soutions

CampusServe: An in-campus ordering system for students to pre-order from canteens, eliminating queues and cash payments. This model is expected to increase canteen throughput by 10-20% and increase brand engagement and loyalty.

Swiggy QC+ (Bundled Ordering): Integrates Instamart with food orders to help students reach the free-delivery threshold. This synergy is projected to boost the average order value (AOV) by over 15%.

Swiggy Campus Connect: A brand engagement program partnering with student clubs and fests for sponsored events. This aims to increase brand recall and new user app usage by over 30%.

Users Personas:

Aman, Student

Pain Points

- High delivery fees on small orders
- Off-campus dine-out is costly and time-taking

Subuddhi, Student

Pain Points

- No online orders after 10 PM in campus
- Long waiting time at canteens

Apoorv, Canteen Owner

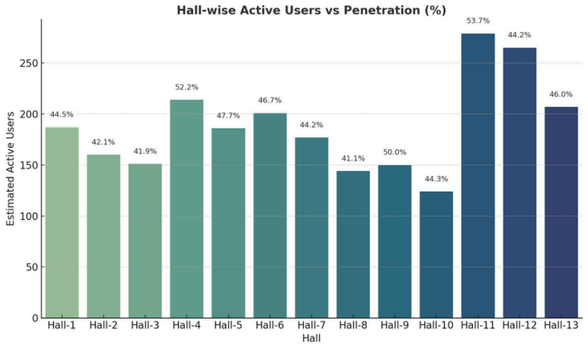

Pain Points

- Manual, time-taking order handling
- Hard to manage peak-time orders

Campus Context & Insights

Campus Snapshot

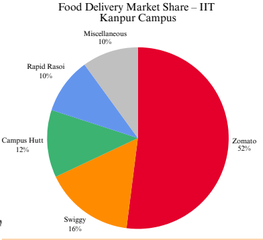

- Total on-campus students: ~7,000 (14 Halls of Residence)
- Largest halls: Hall-12 (~600), Hall-11 (~520)
- On-campus outlets: Campus Restaurant, SAC stalls, ~13 hall canteens strong internal ecosystem, late-night delivery gap

Key Campus Metrics

- Ordering penetration (monthly): 70-80% → baseline 75% (~5,500 students)
- Active Swiggy users: ~550-1,100 (10-20% of ordering students)
- Average Order Value (AOV): ₹280-₹420 (midpoint ₹350)
- Order frequency: 1.5–2.2 orders/week
- Baseline revenue potential: ~₹3.3M/month (1,200 users × 2 orders/wk × 4 wks × ₹350 AOV)

Stakeholder POV

Scenerio	Pain Points	Problem Area	Impact
Food Ordering	Avg order ~₹200; delivery fee too high for small	Low AOV (Average Order Value)	Fewer student orders, low retention
Dine-Out	Students eat at canteens not on Swiggy	Limited campus tie-ups	Missed dine-out users, low visibility
Late-night Orders	Students order after 10PM; delivery not	Night delivery restriction	Lost peak-time demand

Growth Opportunities

Food Delivery

- Frequent use, but low loyalty.
- Students decide on offers, not experience.
- Late-night needs unmet by standard delivery hours (inside campus).

In-campus Food Services

- Canteens & messes still operate offline.
- No pre-booking, digital queue, or feedback loop.
- High inefficiency and cash payment issues.

Dining Out

- Students unaware of nearby dine-out options/deals.
- Planning dine-outs (group tables, budget splitting) is messy.
- Dine-out on Swiggy feels separate from the main app experience.

Competitions

zomato

- Strong presence in Kanpur city with wide restaurant partnerships and offers.
- Competes through aggressive discounts and fast delivery, appealing to budget-conscious students.

CAMPUS HAAT तांकि भटकना ना पड़े

- Focused on local student needs, offering groceries, food, and essentials within campus.
- Builds loyalty through campus-specific offers and community-driven engagement.

RapidRasoi Skip the Wait, Savor the Taste!

- Provides quick, affordable meals tailored for hostel and campus residents.
- Operates through limited-radius delivery ensuring faster turnaround for students.

Swiggy CampusServe (In-Campus Ordering System)

- Pre-order from canteens/messes via Swiggy → canteen confirms & prepares order → QR scan → student notified when ready.
- Removes manual slips, cash frauds, and waiting.
- Impact: 10–20% higher throughput at canteens, consistent micro-orders for Swiggy.
- Pilot Plan: IIT Kanpur → expand to IITs/NITs.
- **Bonus Point:** Since IIT K restricts deliveries post-10 PM, CampusServe can partner directly with in-campus canteens, keeps Swiggy active late night.

Swiggy QC+ (Bundled Ordering with Instamart)

- If order value < free delivery threshold → show pop-up: "Add quick snack/drink from Instamart to save ₹30 delivery."
- Impact: +15% AOV, better Instamart cross-pollination.
- Minor integration on cart page; aligns with Swiggy's FY25 cross-pollination push.
- **Bonus Point:** Allow users to add Instamart items (only available at nearby dark stores) to reach the free-delivery threshold, reducing overall delivery cost — boosting the average order value (AOV) and minimizing per-delivery costs.

SWIGGY + instamart
Bundled Ordering

Swiggy Campus Dine Out

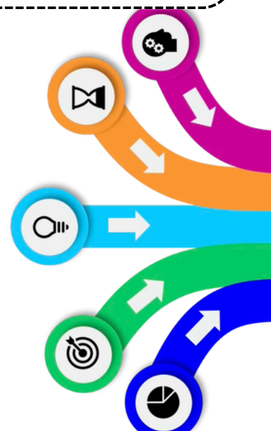

- Smart dine-out discovery ("Post-Exam Treats", "Date Night under ₹200").
- Table reservation & group split bill.
- Timed offers linked to academic calendars ("Stress Buster Week").
- Impact: Increased DineOut usage on campus by 25–30%.
- **Bonus Point:** Exclusive student dine-in combos (e.g., "Exam Week Thali" or "2-for-₹199 Meals"). Offers can sync with academic events like mid-sems or festivals, ensuring consistent footfall and a steady dine-out revenue stream for Swiggy partners.

Swiggy Campus Connect (Brand Engagement)

- Partner with student clubs/fests for Swiggy-backed events → giveaways, snack nights, food booth collabs.
- Budget redirection: Instead of ₹50 coupons per user, ₹20k–30k per event to clubs (high visibility).
- Impact: +30% higher recall & app usage intent among new users.
- **Bonus Point:** Create a Swiggy Student Creator Program with clubs and individuals featuring Swiggy offers during fests or events. The best ones win food credits or vouchers. This leverages peer influence and drives organic engagement.

Swiggy Group Orders

- One order, multiple payers → automatic split & group discounts (₹30–₹50 off per member).
- Impact: +12–15% AOV, higher conversion for large hostels.
- Gamification Add-on: "Wing Wars" – leaderboard for most active ordering wings.
- **Bonus Point:** "Join Nearby Orders" feature can let hostel students combine their small orders automatically if placed within a few minutes, sharing the same delivery. This reduces delivery fee per user and ensures bundled trips.

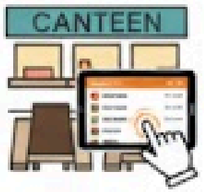

Our Big Idea: Providing affordable dine out options to students and redefining the canteen / in campus outlets experience - "Siwggy CampusServe"

User Journey

Student places order on Swiggy CampusServe (can see approximate order process time) [Prepay / Digital Khata]

Canteen Owner get loud notification
App shows: Order and Payment Details
[Accept] or *[Reject]*

Accepts Order

Upon [Accept], Bluetooth printer generated the Order Slip (Having Details & QR)
App sends order notification to student

Food making inside the Canteen begins as per Order Slip

Staff scan the QR (on Order Slip) (or manually type order id) and app will send notification "Your Order is ready to Pick Up"

Student Collects Order, by showing order-id on phone or student-id

If [PAID]: Order Complete
Otherwise: Auto tracks order to Digital Khata (if exists)

Revenue Model

User

1 + 2

Commissions retained less Swiggy funded Discounts

Fee from User

Printing Machine Revenue

1b + 2 + 3

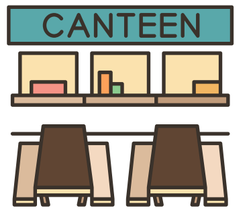

1 — Item total net of discounts, GST and Canteen Charges

2 — Fee from User

SWIGGY

1a — Bill value - Canteen funded discounts, net of Swiggy Commission

3 — Printing Machine Revenue

Canteen Partner

1a − 3

Received from User/Canteen Partner

Paid to Canteen Partner

Benefits

For Students:

- Order from anywhere on campus
- No need to stand in line
- Track past orders easily
- Manage canteen khata digitally
- Get food faster, save time

For Canteens:

- Track all payments in one place
- Reduce manual work and errors
- Manage khatas automatically
- View real-time order records
- Simplify billing and collections

Execution and Feasibility

Initiative	Partners	Complexity	Tech	Time	Cost	Quick Win	Long-term Value
CampusServe	Canteens	🔴	POS, QR	4M	$ $	Canteen tie-ups	Deep Loyalty
Quick Commerce+	Instamart	🟢	API Link	1M	$	Combo add-ons	↑ AOV
Campus Connect	Clubs/Fests	🟠	Marketing Ops	∞	$	Collabs	Brand Recall
Group Orders	Product Team	🟢	Cart Flow	2M	$	Shared cart	↑ AOV
Dine Outs	Restaurants	🟠	Offer Engine	3M	$ $	UI tweak	↑ Dine-outs

Impact on Growth

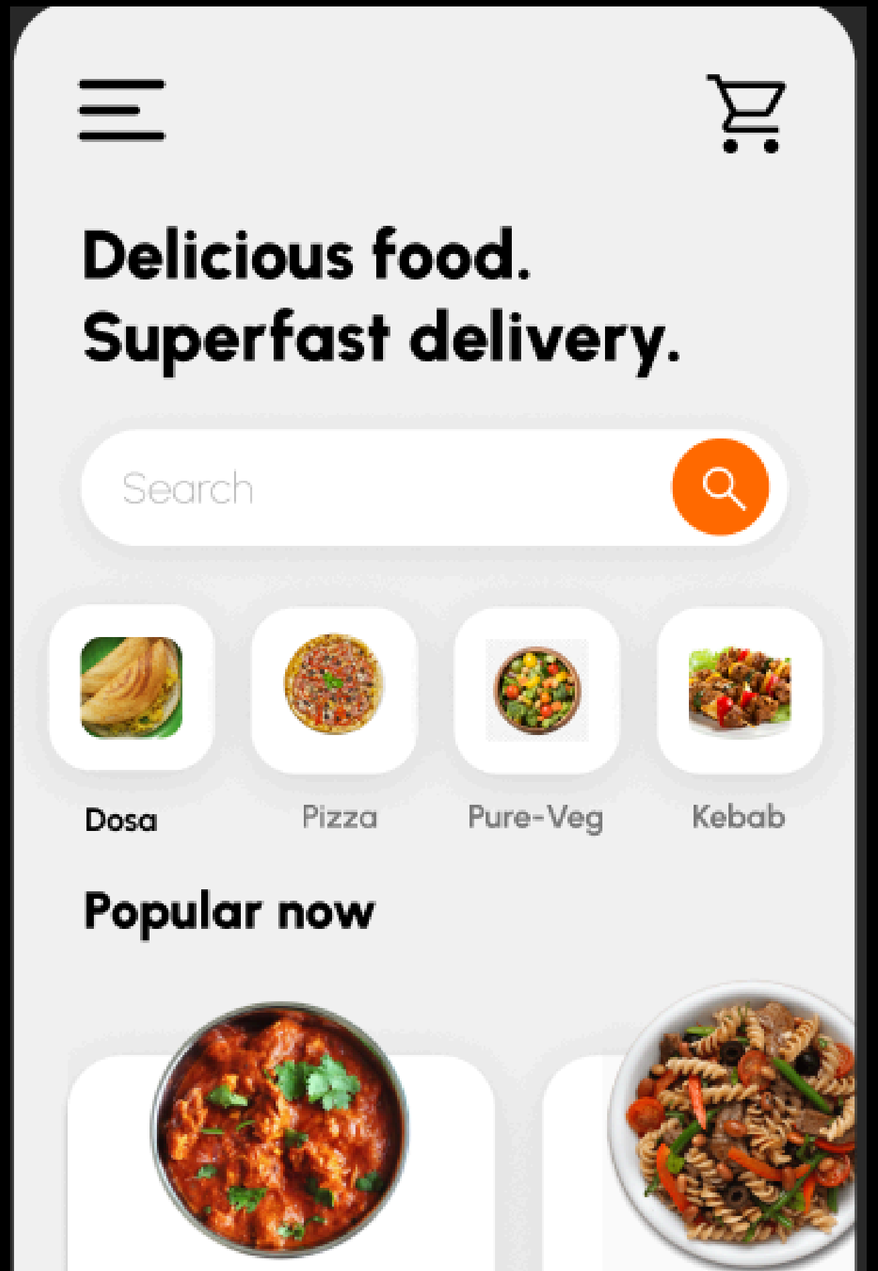

📈 +25–30% GOV growth (6 months)
👥 +10–15% new student installs
🍱 +25% rise in monthly orders/student
🍽️ +1.5× dine-out frequency
💬 10% student adoption → +400 orders/week

Execution Feasibility

🚀 Phase 1–5 rollout: CampusServe → DineOuts
⚡ QC+, Campus Connect go live in <6 weeks
🧩 Group Orders via shared cart beta

Cost Effectiveness

💸 Focus: QC+, Campus Connect = high ROI
⚙️ Moderate cost: CampusServe, Dine Outs
💰 ₹1 in Connect → ₹5+ GMV return
